

# AHMED HUSSEIN

## FRONTEND DEVELOPER

### ABOUT ME

I am a passionate software engineer operating mainly with JavaScript, with **4+ years** of experience constructing clean and quality products, building cross platform mobile applications using **React Native** and web applications using **React**.

I love implementing scalable, maintainable, testable, clean solutions - following established written procedures, guidelines, techniques, and best practices with a good eye for design and details.

### WORK EXPERIENCE
